The Spokespersons of the Foreign Affairs Ministries of France, Germany and the United Kingdom, released a Joint statement over the diplomatic efforts deployed by the respective countries for viable deal with Iran, amid the Nuclear Program under the JCPOA, agreement. We publish the full text of the Joint statement. (Source: french foreign Affairs Ministry)" We the governments of France, Germany and the United Kingdom have intensely negotiated with Iran, in good faith, since April 2021 to restore the JCPOA, along with other JCPOA participants, as well as the United States. There has been a viable deal on the table since March 2022, which would return Iran to compliance with its JCPOA commitments and the US to the deal. We regret that Iran has not seized the diplomatic opportunity to conclude the deal. We urge it to do so now. We are ready to conclude the deal. » (Source: french foreign Affairs Ministry)

Despite this Iran is now installing additional advanced centrifuges and has confirmed to the IAEA its decision to end all JCPOA-related transparency measures. This jeopardises the ability of the IAEA to restore continuity of knowledge on key parts of the Iranian nuclear programme, including on the production of centrifuges.-----

We condemn these steps and that Iran is responding to concerns expressed by the IAEA Board of Governors – in a resolution adopted with overwhelming support – by announcing steps to even further decrease cooperation with the IAEA. These actions only aggravate the situation and complicate our efforts to restore full implementation of the JCPOA. They also cast further doubt on Iran's commitment to a successful outcome. We urge Iran to resume application of the Additional Protocol and of all JCPOA-related monitoring and verification measures, cease its nuclear escalation, and urgently conclude the deal currently on the table to restore the JCPOA, while this is still possible.(Source: French foreign Affairs Ministry)
